### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Applicants amendment of the specification, cancellation of claims 1-5 and 7, amendment of claims 6, and 8-11 and the addition of new claim 12, in the paper of 4/23/2004, is acknowledged. Claims 6 and 8-12 are still at issue and are present for examination.

#### ***Specification***

The disclosure is objected to because of the following informalities:

The amendment filed 4/23/2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicants amendment to the specific amino acid sequence of SEQ ID NO: 12, is not supported by the specification at the time of filing and is thus considered new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The previous rejection of claim 6 under 35 U.S.C. 112, second paragraph, has been withdrawn.

Art Unit: 1652

Claim 6 recites the limitation "wherein the polypeptide" referring to the encoded N-acetylglutamate kinase. It was suggested that for clarity sake, that this be amended to "wherein the N-acetylglutamate kinase ". Applicants have not responded to this previous suggestion, however, the rejection has been withdrawn.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 6 and 8-12 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Previously claims 9 and 11 were rejected under 112 1<sup>st</sup> paragraph because the species claimed were not supported by the original specification. In response to this rejection applicants amended claims 9 and 11 as well as claims 6 and 8 and added new claim 12. Applicants additionally amended the sequence of SEQ ID NO: 12, the subject matter of claim 6, which claims 8-12 depend from.

As discussed above applicants amendment of the sequence of SEQ ID NO: 12 is objected to as introducing new matter, because the amendment is not supported by the specification at the time of filing. Thus claim 6 which is drawn to the polynucleotide which encodes SEQ ID NO: 12 and those claims dependent on claim 6 are rejected as containing new matter.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
